WTGL DEBUTS, AND ITS FIRST TEST IS THE SIMULATOR

SWIPE →

THE TECH

HOW A SHOT GETS READ AT SOFI CENTER

1 RADAR AT IMPACT

An array of Full Swing KIT units works as one to track the club and ball at the moment of impact.

2 OPTICAL IN FLIGHT

Toptracer tracks the ball through the air and extrapolates where it would have gone.

3 ROOM TO FLY

The back box is 35 yards from the screen, so a 200 mph plus drive has time in the air.

4 PHYSICS ENGINE

A custom version of Full Swing's simulator software and physics engine plays out the hole.

WHAT IT CHANGES

WHAT THE DEBUT SETS UP

1 PRIMETIME SLOT

Most WTGL matches will be in primetime on Mondays or Tuesdays, on ESPN and Ion.

2 SHARED OWNERS

Each WTGL ownership group also owns a team in TGL.

3 DATA IN THE BROADCAST

WTGL uses TGL's tech-driven platform, with shot performance data and statistics-based analytics in the competition.

4 NEW OWNER FOR THE TECH

Full Swing now sits in Versant's golf business with Golf Channel, GolfNow and GolfPass.
