FLORIDA BASKETBALL'S 96% AVAILABILITY AND THE DATA PROGRAM BEHIND IT

SWIPE →

THE TECH

TWO TOOLS BEHIND THE GATORS' PROGRAM

1

CATAPULT WEARABLES

Tracks data for the Gators during practices and games. The football program also uses it.

2

FORCE PLATES ON THE COURT

Workload data, plus the numbers Lopez uses to individualize each athlete's program.

3

REACTIVE STRENGTH INDEX

How quickly an athlete can transition from a loaded position into an explosive action.

4

ECCENTRIC BRAKING

How quickly an athlete can produce braking force while decelerating relative to their body weight.

THE PEOPLE

WHO RUNS IT, AND WHO TESTED

THROUGH THE YEAR

HOW THE DATA GETS USED

1 EARLY OFFSEASON

Body composition first: gain muscle, cut body fat, or maintain.

2 THREE-WEEK BLOCKS

A training block lasts for three weeks, and then the staff reevaluates.

3 IN SEASON

The data tracks muscle fatigue, so staff know which players need recovery.

4 SEASON'S END

Lopez presents head coach Todd Golden a full presentation on all the data gathered.

“

It really does guide us on what type of training program those guys should be on.
