HOW IT WORKS

FROM END-ZONE FILM TO A TACKLE PLAN

1 **CAPTURE**

Focus Point LR is a fixed end-zone camera that starts recording before the first play

2 **UPLOAD**

Video is automatically uploaded to Hudl

3 **ASSESS**

Atavus evaluates the footage in its Tackle Performance Assessment

4 **DIAGNOSE**

Its patented method finds the root cause of each miss

5 **COACH**

Findings become tailored tackle plans for players and teams

TIMELINE

ATAVUS, FROM RUGBY TO HUDL'S END ZONE

2011

Atavus starts as a rugby skills platform

2016

Kerry Carter joins Atavus

2019

Phoenix Sports Partners acquires Atavus

2024

Carter becomes CEO in January; first Hudl partnership announced in April

NOV 4, 2026

Multi-year preferred partnership with Hudl announced

“

Hudl’s new end-zone camera provides the angle our team needs to evaluate tackling at a deeper level, so we can turn around Tackle Performance Assessments faster and with more usable detail for coaches and players.
